

PET/PC/PP/PLA PRACTICAL TYPE OF PREFORM MOULD

—— 实用型瓶坯模具

我们在全球范围内为您提供全方面服务。包括技术咨询、样品制造、模具配件、模具翻新改造和维修服务等。通过我们的应用技术与现场服务，为您的生产线提供持续性支持。

We provide comprehensive services worldwide, including technical consulting, sample manufacturing, mould accessories and repair services, and overall mould refurbishment.

We offer continuous support for your production line with our application technology and on-site services.

96 Cavity Preform Mould
96 腔瓶坯模具

PREFORM MOULD ACCESSORIES

—— 高品质瓶坯模具配件

Manufactured to very high standards with corrosion-resistant steel plates and optimized for preform production, we can produce high-quality spare parts for customers' HUSKY and MHT preform moulds, including cores, cavities, and neck rings.

ENTERPRISE PROFILE

—— 企业概况

Committed To Providing One-stop Solutions For Preforms
致力于提供瓶坯一站式解决方案

Taizhou Yankai Mould is a professional preform mould manufacturer. Over time, Yankai has accumulated rich experience in the design and manufacture of preform moulds of various specifications. Since our establishment, we have been committed to providing customers with high-quality moulds and excellent services, striving to become your most trusted and reliable partner.

We have high-precision CNC machine tools and machining centers, advanced equipment and testing instruments, sophisticated technology, and a strict and complete quality management system. We gather professional technical elites and leading-level scientific and technological teams to fully utilize new technologies and processes. The new materials ensure the stability and reliability of the product and lay a strong foundation for the manufacture of high-quality moulds.

Based on customer needs, we provide professional advice and optimization solutions, focusing on every detail of product manufacturing to create value for our customers. Our experienced technical team, along with high-precision imported mould processing equipment, design and manufacture preform moulds according to plastic bottle samples and preform samples to ensure the final moulding quality of plastic bottles.

HOT RUNNER VALVE GATE PREFORM MOULD

—— 针阀式气封瓶坯模具

瓶坯采用电脑模拟拉伸测试设计，提高吹瓶的成品率。
The preform adopts computer simulation tensile test design to improve the finished rate of blowing bottle.

采用世界先进的二级双锥度定位技术，每腔独立自锁，确保模具同心度。
Adopting the world's advanced two-stage double taper positioning technology, each cavity is independently self-locking to ensure the concentricity of the mould.

模具注腔、注芯选用瑞典原厂预处理优质专用模具钢制造。
The mould cavity and core are made of high-quality special mould steel preheated by the original Swedish factory.

96 Cavity Injection System Mould
Adapted To HUSKY HyPET400

PET/PC/PP/PLA HIGH QUALITY PREFORM MOULD

— 高精度/高品质瓶坯模具

- Faster injection times
- Reduce holding time
- Lower AA value
- Lower energy consumption
- Quick color change
- Simplified maintenance
- 更快的注射时间
- 减少保压时间
- 更低AA值
- 更低能耗
- 快速换色
- 更简便的维护保养

WIDE MOUTH PREFORM MOULD

— 广口瓶坯模具

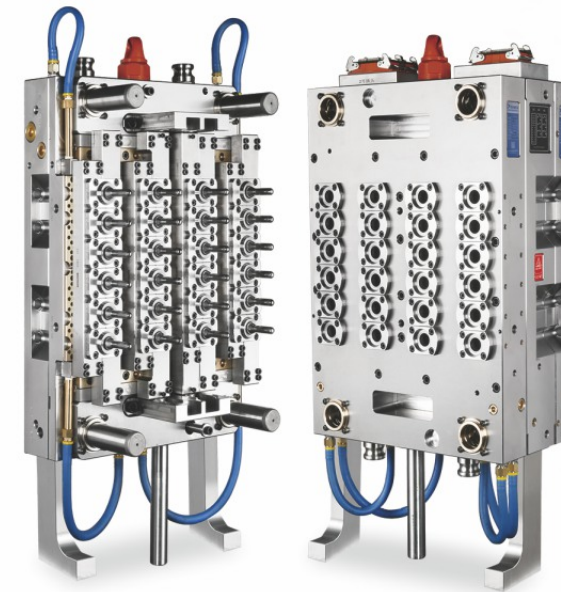

独立双锥互锁, 有效减小模具磨损, 确保模具寿命及最终瓶坯的尺寸精度。
精密凸轮机构为模具螺口滑块的开闭提供精确导向, 确保模具使用寿命。

Our individual dual taper locking design for thread splits, lock rings, and cavities reduces mould wear. It guarantees longer mould life and tight tolerance for the final preform product.

Roller cams guide both the opening and closing actions of the thread splits. The bearings have less friction, ensuring that the movement of the thread splits and plates is smooth, and guaranteeing longer working life. This roller cam system ensures longer service time.

COSMETIC PREFORM MOULD

— 化妆品瓶坯模具

螺纹口按国际标准制造, 材料选用进口氮化钢, 硬度高, 使用寿命长。

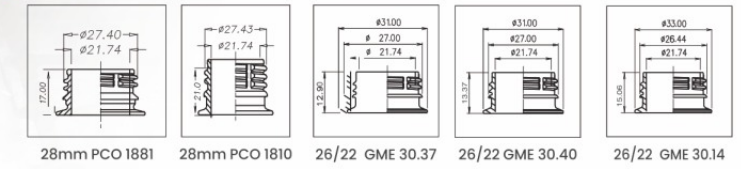

The threaded port is manufactured according to international standards, and the material is imported nitride steel, which has high hardness and long service life.
